SUMMARY

Analytical professional transitioning from warehouse operations to data analytics, with experience in process improvement and performance analysis. Skilled in Excel, SQL, Power BI, and Tableau for cleaning, analyzing, and visualizing data. Ready to apply operational insight and technical skills to drive data-informed decisions.

SKILLS

- **Data Analysis:** SQL, Microsoft Excel, Data Mining, Data Cleaning, Statistical Analysis
- **Data Visualization:** Tableau, Power BI, Google Sheets
- **Databases:** PostgreSQL
- **Bilingual:** English & Vietnamese

CERTIFICATIONS

- **CompTIA Data +:** August 2025
- **Data Analyst Career Certificate:** June 2025
- **Advanced Spreadsheets Certification (NCLab):** April 2025
- **SQL Fundamentals:** November 2024

EDUCATION

NCLab

Jul 2025

Data Analyst Career Training Program

- **Coursework:** SQL Fundamentals, Spreadsheet Fundamentals, Data Visualizations with Spreadsheets, Statistical Analysis, Advanced Spreadsheets, Introduction to Dashboards, Excel Project, Tableau Dashboard, PowerBI Dashboard

Northwest Missouri State University

Dec 2022

Bachelor of Science, Mass Media

- **Coursework:** Statistics, Social Media Analytics, Media Research Methods, Fundamentals of Electronic Media Production, Media Design, Digital Literacy

PROJECTS

2021-2022 NHL Statistics Dashboard (Google Spreadsheets)

Jun 2025

- Built an interactive 2021–22 NHL statistics dashboard in Google Sheets to compare player performance and summarize metrics by team and position, enabling quick insights through filters and visual charts.

Iris Species Size Comparison (Power BI)

May 2025

- Comparing sepal and petal dimensions across Iris species using Power BI, creating interactive visuals that highlighted size differences without unpivoting data, enabling clear, insight-driven classification.

Inventory Transfer

Jan 2024

Raising Canes

- Coordinated the transfer of client inventory between warehouses, tracking stock levels, movement status and locations using spreadsheets and/or inventory software.

WORK EXPERIENCE

Wil Fischer Beverage Companies

Jul 2024 - Present

Loader/ Unloader

Kansas City, MO

- Resolved inventory discrepancies during loading/unloading by tracking stock data using Google Sheets, improving accuracy and reducing shrinkage by ensuring system alignment with physical counts
- Prioritized tasks based on delivery schedules and item frequency, which improved operational efficiency during peak periods

NCLab

Jan 2024 - Jun 2025

Data Analyst Trainee (Upskilling through Career Training)

Remote

- Completed coursework in data analytics, enhancing skills in Google Sheets, SQL, and Tableau, leading to improved data analysis capabilities
- Mastered SQL, spreadsheets, and dashboard creation, applying linear regression and hypothesis testing to enhance statistical analysis proficiency
- Developed problem-solving, critical thinking, and time management skills, enhancing adaptability and attention to detail in professional settings

SLWM

Jul 2023 - Jul 2024

Shipping & Receiving

Kansas City, MO

- Analyzed shipment logs and flagged discrepancies between received items and purchase orders, improving data accuracy and reducing inventory mismatches
- Prioritized shipments using Google Sheets based on stock levels and delivery windows, improving dock workflow efficiency
